MEMORANDUM FOR: Brig. General A. J. Goodpaster  
Staff Secretary  
The White House

Last month George Kennan visited Poland and sent me a memorandum of his impressions, a copy of which is attached. While I do not share the views of the writer on many subjects, he is a keen observer and his report on Poland is the best summary I have seen on the evolving situation there.

It is possible that the President would be interested in glancing it over.
